

**Police Commissioner Charles H. Ramsey Selected
2009 Person of the Year**

On Saturday, February 14, 2009, the Polish Police Association of Philadelphia held its 33rd Annual Founders Day Banquet at King's Caterers II in Bristol, PA. Over 500 people gathered to celebrate the occasion with an evening of good food, friendship and Polish American entertainment.

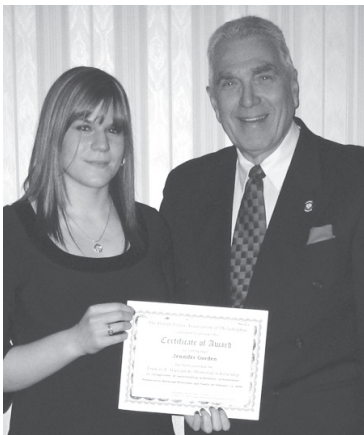

Each year the organization chooses a Person of the Year. This year the Polish Police Association was pleased to honor Police Commissioner Charles Ramsey as its Person of the Year. A native of Chicago, Commissioner Ramsey served in the Chicago Police Department for nearly three decades in a variety of assignments. He became the chief of the District of Columbia's Metropolitan Police Department from April 21, 1998 to December 28, 2006. As head of the 4,400-member Metropolitan Police Department, Commissioner Ramsey worked to improve police services, enhance public confidence in the police, and bring down the District of Columbia's crime rate. He was appointed Police Commissioner of the Philadelphia Police Department on January 7, 2008 by Mayor Michael Nutter. Commissioner Ramsey leads the fourth largest police department in the country with 6,700 sworn members and 830 civilian members. He brings the knowledge and experience of nearly forty years in the law enforcement profession.

The Polish American Congress, Eastern PA District, and the entire Polonia extend congratulations to Police Commissioner Charles Ramsey and wish him much success in the future. Sto Lat!

**A Message From
Pennsylvania State Representative**

John Taylor

**177th Legislative District
Philadelphia, PA**

As Pennsylvanians continue to struggle with energy-related expenses, state Rep. John Taylor (R-Philadelphia) is reminding residents of a state program that facilitates energy-efficient upgrades to their homes.

The Keystone HELP Energy Efficiency Loan and Rebate Program provides homeowners with unsecured and secured loans ranging from \$1,000 to as much as \$35,000. Certain qualifying upgrades are also eligible for rebates of up to \$250 or \$500.

Improvements must be completed by an approved contractor. The type of eligible improvements varies based upon the type of loan or rebate being requested and can include:

- * Energy Star-rated electric, gas and oil heating systems (78% AFUE or Annual Fuel Utilization Efficiency Rating is required for systems that are not Energy Star certified).
- * Energy Star certified central air conditioning systems.
- * Energy Star-rated windows and doors.
- * Geothermal and other alternative energy heating and cooling systems that have an Energy Star rating. Solar energy systems are not eligible.
- * Energy Star certified water heaters, programmable thermostats, and ceiling fans.

Depending upon the type of loan, homeowners will need to conduct a home energy audit by a certified home energy auditor. Homeowners must have satisfactory credit, must be able to repay the balance within the term of the loan and must not have a combined income of more than \$150,000 to be eligible.

While several different loan programs exist, there are no fees to apply or penalties for early payment, and closing costs are minimal. Additionally, some loans do not require a lien to be filed on property if funds are accepted.

For more information, to apply for a Keystone HELP loan or for a complete list of eligible improvements, individuals may visit my Web site at www.RepTaylor.com or call toll-free at 1-888-232-3477.
